	Revenue for the Landscaping Services industry is expected to decline signif cantly in 2020 as a result of mandatory business shutdowns across the United States. For more information, please see the Current Performance chapter. Revenue for the Landscaping Services industry is expected to rise in 2021 and throughout the outlook period: although, diff cult conditions across consumer markets may affect the strength of the rebound. For more information, please see the Industry Outlook chapter.	The Landscaping Services industry alters, maintains or enhances the visible components of land and property. Demand for industry services is dependent on the health of the housing and property markets, both of which have grown steadily over the f ve years to 2020. Additionally, since landscaping services are often discretionary, industry demand is dependent on levels of per capita disposable income and, thus, the high-income demographic, which generates a healthy portion of its revenue. The industry also relies on demand from institutional and commercial c ates a3. asly aslycommercial c 61 fites a3.) @7el asl.5 for)24.7 (§5)
